TECHNICAL INFORMATION

Item (Direction)	Unit	Standard Value	Tested Method
Dimensional Stability	% (L) % (W)	Not more than ± 0.15	ASTM D 1204 DIN EN 651
Indentation	mm	Not more than 0.3	ASTM F 387 DIN EN 429
Indentation on Residual	%	Not more than 2.5	ASTM F 387 DIN EN 429
Abrasion	g	Not more than 0.2	ASTM F 3884 DIN EN 429

FEATURES :

- Anti contamination • Anti microbial • Excellent anti-indentation with extra hard surface
- High dimensional stability with glass fiber layer • Quick and easy installation • Elegant & realistic patterns

Applications : Office, Shop, Domestic areas, Bedroom, Kitchen, Children's room

Maintenance : Vacuuming/dry mopping daily with a clean cloth to remove dust, Wet mopping with mild recommended detergent to remove stains once or twice a week, Maintain high surface shining with recommended Liquid wax polish in prescribed proportions, periodically

* Use of good quality **entrance mat** is recommended to minimise entry of dust.
